41. The redemption of Fund units may be suspended if:
- 41.1. this is necessary to protect the interests of the public and, consequently, of the Participants against a possible insolvency of the Fund or a fall in the redemption price in the event of an unfavourable situation in the market for the financial instruments and a fall in the value of financial instruments;
- 41.2. there is insufficient cash to pay for Fund units to be redeemed, and the sale of the securities held would be loss-making;
- 41.3. such a measure is imposed by the Supervisory Authority.
42. From the moment of the decision to suspend the redemption of Fund units, it is prohibited:
- 42.1. to accept applications for the redemption of Fund units.

44. If the decision to suspend redemptions was taken by the Supervisory Authority, the right to resume redemptions may be exercised only by the Supervisory Authority, or by the court or the Administrative Disputes Commission annulling such decision. In other cases, the Management Company also has this right.
45. The decision to resume the redemption of the Fund units must be notified in the same way as the suspension of redemption.

IX. Procedure for the valuation of the fund's assets, calculation and publication of the value of a fund unit

46. Assets and liabilities are measured at fair value unless such value cannot be measured reliably.
47. The fair value of assets and liabilities is determined by reference to observable market transactions or market information. If observable market transactions and market information relating to the assets and liabilities are not available, fair value is determined using valuation

techniques. The objective of fair value measurements is the same in all cases: to estimate the amount for which counterparties could sell an asset or service, or transfer a liability, to each other in an arm's length transaction at the measurement date.

48. The difference between the value of assets and liabilities represents the net asset value (NAV).
49. The value of assets is determined in accordance with the methodology for calculating the NAV approved by the Board of the Bank of Lithuania and the methodology and procedure for calculating the NAV approved by the Management Company.
50. The previous Working Day's value of a Fund unit and the NAV are calculated on each Working Day and published not later than 2:00 p.m. on the current Working Day on the website www.artea.lt.

X. Procedure for setting the sale and redemption price

51. The selling price of a Fund unit is calculated as follows:
 - 51.1. The value of Fund units is determined by dividing the value of the Fund's net assets on the date of sale by the total number of Fund units in circulation.
 - 51.2. The selling price of a Fund unit is equal to the value of the Fund unit plus the amount of the distribution fee.
52. The redemption price of a Fund unit is equal to the value of the Fund unit. No additional fees apply when redeeming units of the Fund.

XI. Procedure for publishing information on the fund

53. The Management Company shall submit all reports and/or other notifications required by law to the Supervisory Authority and to the public in accordance with the procedure and within the time limits established by law.

57. All other reports and/or notifications not referred to in this Section of the Rules shall be published on the website www.artea.lt.

XII. Distribution of the fund's revenue

58. The revenue generated by the Fund shall be used to cover the Fund's costs and the remaining income shall be reinvested.

XIII. Grounds and procedure for dissolution of the fund

59. The Fund may be dissolved in the following cases:
 - 59.1. following the Management Company's decision on the dissolution of the Fund;
 - 59.2. if the situation is not rectified within 6 months of the date on which the net assets have fallen below the required level, the Management Company must immediately take steps to have the Fund wound up or liquidated.
 - 59.3. in other cases provided for in the legislation of the Republic of Lithuania.
60. Following the decision to dissolve the Fund, the redemption and distribution of the Fund units shall cease and the diversification requirements shall no longer apply.
61. If, at the time of the dissolution, it becomes apparent that the Fund's assets are insufficient to cover the obligations incurred on its account, the Management Company shall not be obliged to meet the remaining obligations in cases where, at the request of the Management Company, the Supervisory Authority certifies that there is no evidence of any failure by the Management Company to comply with the obligations imposed on it by the Law on Collective Investment Undertakings and by the Fund Rules.
62. After creditors' claims have been satisfied, the proceeds of the sale of the assets constituting the Fund must be distributed to the co-owners of the Fund in proportion to their shares.
63. In the case of legal proceedings concerning obligations to be discharged at the expense of the Fund, the Fund may be dissolved only after the judgements in such proceedings have become final.

XIV. Procedure for amending the rules of the fund

64. The Rules of the Fund shall be amended and supplemented by a decision of the Board of the Management Company.
65. Amendments to the Rules shall be subject to the prior authorisation by the Supervisory Authority. Amendments to the Rules shall enter into force on the day following the date of the decision of the Board of the Management Company to approve the amended version of the Rules, unless the decision of the Board of the Management Company specifies a later date of entry into force.
